PROJECTS

Covid-19 Visualization and Prediction | Python - Matplotlib, Sklearn

- Built a COVID-19 analysis system with Johns Hopkins dataset, visualization, and prediction modules using Linear Regression, SVR, and Bayesian Ridge models.
- Enabled real-time trend forecasting and hotspot detection for informed decision-making.

Website Development | HTML, CSS, JavaScript

- Designed and implemented a responsive front-end using HTML, CSS, and JavaScript.
- Reduced page load time by 15% and improved visual consistency, enhancing client visibility.

WORK EXPERIENCE

Intern at Sonata Software

September 2025 - December 2025

- Studied LLM performance benchmarks and learnt how different evaluation metrics affect real-world model usage.
- Explored Azure AI Foundry to understand model deployment, monitoring, and pipeline workflows.
- Built foundational knowledge to contribute to future team tasks and AI projects.

Intern at Skilltimate Technologies

May 2024

- Built an ML model to forecast stock prices using Twitter sentiment and financial data.
- Integrated NLP and regression models, improving trend prediction accuracy for real-time insights.

SKILLS

- Programming Languages:** Python, C, Java
- Data & Analytics:** SQL, Data Visualization
- AI/ML:** scikit-learn, NLP, Regression Models, Model Evaluation
- Core Concepts:** OOP, DSA, Computer Networks, DBMS, Operating Systems
- Web Development:** HTML, CSS, JavaScript
- Tools:** Git/GitHub, VS Code
- Soft Skills:** Leadership, Communication, Team collaboration

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AIML)

Malla Reddy Engineering College

October 2022-July 2026

8.78 CGPA (upto Semester VI)

(expected)

High School

Kendriya Vidyalaya, Picket, Secunderabad

April 2010-July 2022

93.6% in 12th grade (CBSE) | 94.4% in 10th grade (CBSE)

CERTIFICATIONS

- Azure AI Fundamentals (AI900)** - Microsoft
- SQL** - HackerRank
- Natural Language Processing** - NPTEL
- Essentials Developer** - Automation Anywhere University
- Python** - HackerRank
- Data Structures and Algorithms using C and C++** - Udemy

ADDITIONAL INFORMATION

Languages Known

English (Advanced), Telugu (Native), Hindi (Intermediate), German (currently learning, A1 Level)

Hobbies

Reading books, Baking
